The concerned persons handling physical stores may be given reasonable time to locate the reasons for discrepancy. The stock verification sheets (Appendix-VI) should be prepared from the data collected and signature of the person handling the stores (in that particular department/unit) be obtained on all the copies of the verification sheet. Verification results should also be recorded in respective ledgers.

PART III - WRITE OFF, CONDEMNATION AND DISPOSAL

1.0 Concept

An item may be declared surplus or obsolete or unserviceable, if the same is of no use to the institute or when the item is beyond economical repair. An item may be rendered surplus, obsolete or unserviceable in the process of upgrading or replacing institute property or when institute property or equipment no longer serves a functional use due to programme, procedure or other changes. Under such circumstances the property and equipment may be disposed of in the best interest of the institute as per the following guidelines with prior approval of the Director.

- a) Wherever possible, the stores/equipment is traded under buy back scheme, so as to reduce the cost impact on the new stores/ equipment.
- b) If the above option is not available, the property and equipment may be sold out-rightly with due procedures.
- c) Obsolete, unusable materials beyond economic repair may be disposed-off as per procedure.

This manual outlines the procedure for write off and disposal of unserviceable materials purchased by department /inter-disciplinary programme /centres /central facilities/sections and purchases in projects etc.

2.0 General Procedure for writing off the unserviceable Materials/Items.

2.1 The items to be declared obsolete /surplus/ unserviceable should be examined by a survey committee. The survey committee will normally consist of three officers and will be duly approved by the Director, IIT (ISM), Dhanbad. The chairman will normally be of the division to which the stores pertain. The store holding officer will be one of the three members of the survey committee. The stock holding authority shall prepare the forms for survey committee reports for the material which is to be put up to the survey committee for survey. The forms of survey committee report for the stores which do not belong to NCS category, have been prescribed at Appendices VII and VIII.

2.2 The survey committee should inspect critically the condition of all the stores:

- i) that have deteriorated in value for any reason,
- ii) broken or damaged in transit or while in stock,
- iii) lying in the custody of various stock-holding authorities for a long time and considered by the respective stock-holding authority as having become surplus owing to obsolescence or other causes,
- iv) received as unserviceable from the fields/camps.

Here the "life period" has been prescribed on any item and if the same is already over, it should normally be taken as enough ground for declaring the item obsolete and unserviceable. However, the condition of the item should still be thoroughly examined to see whether the item could be put to further use.

In other cases, where the life period is not over or no life period has been prescribed or stipulated, the reason for declaring the item unserviceable should be clearly recorded such as, may be normal wear and tear, excessive use in public interest, accidental fire, flood and other natural causes, damage due to insect, rats etc.

In case of NCS items, the survey committee should examine all records in addition to the inspection of the physical stores with the existing condition. In this case, the committee may also call for a technical report of 'Beyond Economical Repairs' from the concerned HOD, if it is so desired.

An item may be declared obsolete / surplus if it is no longer required by the departments. Reasons for the same should be recorded. In case of loss due to negligence fraud or mischief on the part of any employee, responsibility should be fixed and losses should be made good.

2.3 The survey committee should determine after such inspection and offer their recommendations on the following:

- a) the condition of the stores, whether these are unserviceable or dead surplus stores;
- b) the method of disposal, i.e. by sale through auction/tender or by issue to particular user of a particular division etc.

The function of the survey committee shall be only inspecting the physical condition of the stores and then record their observations. The report so prepared shall be submitted to the Chairman, 'Central Write-off/ Condemnation Committee' for further necessary action.

2.4 The report of the above-mentioned survey committee shall be submitted to a duly constituted 'central write-off/ condemnation committee' by the Director, IIT (ISM).

2.5 The function of the 'central write-off/ condemnation committee' shall be thoroughly examining the report submitted by the survey committee and verifying the physical condition of the identified stores. The committee shall then record their recommendations either to accept or to reject the write-off/condemnation of those identified stores along with the method of disposal if any. This committee shall also fix the reserve price of the identified stores. All these recommendations so prepared shall be submitted to the Director, IIT (ISM) for his approval. The reserve price, as suggested by the committee shall be kept in sealed cover and will be opened while finalizing the auction/ tender.

3.0 Disposal of Surplus and Obsolete Stores

3.1 List of surplus stores, i.e. stores which have not moved for over 24 months consumption in the department should be prepared by the Physical Verification Team every year class-wise. This list should be put to the respective Divisional Head for his remarks as to whether there is any possibility of issue of the stores in the near future or whether the concerned stores are to be treated as “Dead Surplus” or “Obsolete”. The items which are recommended as dead surplus or obsolete should be listed out and presented to the survey committee and their survey be arranged by the store holding authority. In such cases, the stores shall be transferred to the unserviceable stores section only after the approval of the competent authority for write-off has been obtained. The unserviceable stores section shall arrange their disposal.

3.2 The stores need to be disposed preferably through MSTC Ltd. or any other disposable agencies will continue to be under the custody of the concerned store holding authority until they are disposed of. It should be ensured that proper protection is given to these stores till their removal by the purchaser and that the time lag between the declaration and the actual disposal is required to be the minimum.

3.3 The sale-proceeds from disposal arranged by preferably by MSTC Ltd. or any other disposable agencies will be credited to IIT (ISM), Dhanbad and accounted for in the books of Registrar, IIT (ISM), Dhanbad.

4.0 Direct Disposal

4.1 Direct disposal may be resorted to when the quantity to be disposed of through MSTC Ltd. is too meagre and considered quite uneconomical to go through them. All disposals, irrespective of the value of the stores involved should be effected through public auction. Notice to sell stores by auction should be widely advertised so as to attract as large a number of likely buyers as possible. The conditions of sale by auction should be embodied in the sale notice itself, which should be issued to a sufficient large number of local parties; the notice should also be displayed prominently on the Notice Board of each building of the office as well as hosted in the IIT (ISM) website. The auction should be supervised by a committee approved by the Director, IIT (ISM).

4.2 The stores may be grouped into suitable lots; the highest bid against each lot should be accepted subject to payment of earnest money of not less than 25% of the total bid amount accepted, unless of course, the entire amount is paid and the release of stores desired immediately after the auction.

4.3 The earnest money should be handed over to the cashier who should furnish proper receipt duly signed for delivery to the party on the spot.

4.4Balance 75% may be paid at the discretion of the party either in cash or by deposit into authorised bank. The party should be asked to surrender the receipt given to him in acknowledgement of 25% earnest money and bank challan for balance of 75% before the stores can be released. On receipt of the same sale release order should be drawn up by the store holding authority in triplicate. One copy should be retained in his office, one copy should be sent to party and the third should be sent to the Unserviceable store depot with their copy of the release order which will be surrendered by the party to the depot officer with their note on that copy. The Depot shall issue the stores on Sales Issue Note. The Sale Issue Note will be prepared in triplicate; one copy may be given to the party along with the stores which will form the basis for making the gate-pass and checking the stores at the gate. Acknowledgement of the party to be taken in 2 copies of which one will be kept by the Store Keeper and the other passed on to Stores Section for posting in the ledger.

4.5In case the buyer, for some reason or other refuses to take delivery of part of the stores for which payment has been made, the store holding authority should not refuse permission to remove the portion of the lot which the buyer wants to remove. The store holding authority at the same time should serve on the buyer in writing his protest against the buyer's refusal to remove the rest of the goods sold and warn him that the stores left out will be forfeited in accordance with the conditions of the sale.

4.6After the stores have been delivered, the ledger of unserviceable stores shall be posted with the copy of the sale issue note (Appendix-IX). Record of such Sale Issue Notes should be maintained and watch to be kept that there is no missing serial number.

4.7 The copies of the final proceeding of the disposal of surplus/ obsolete/ unserviceable and direct disposal with the details of money being received there to should be sent to the AS for making necessary entries in the books of accounts and the Asset Register.

5.0 Miscellaneous

5.1It has been observed that very negligible value is quoted for items like computers, printers, typewriters and furniture etc. It will be, therefore, appropriate, if the preference is given to institute employees while selling off the above items after taking approval from the Director.

5.2The institute shall reserve the right to reject all or any tender without assigning any reason. The decision of the Director in this behalf and all other matters relating to the disposal shall be final and binding.

5.3Cases not covered by the Stores & Purchase manual will be decided by the Director in the interest of Institute.
