### How to read the time-table<sup>#♣</sup>

- A course name abbreviation identifies each course
- His/her Unique name abbreviation also identifies each instructor
- The name abbreviation of the instructor follows the course name abbreviation
- Theory, tutorial and practicals are generally identified by different coloured cells
- In addition a Tutorial is identified by (T), and a Practical is also identified by (P)
- The home classroom\* of each class is identified in VENUE
- If a class is held in a classroom that is not the designated classroom, the classroom\* of the said class is also indicated in the cell
- The laboratories\* where the practical classes are being conducted are also indicated in the cell
- Each time table is followed by a table that identifies the type of course, course name, course code and the venue\* of the class

\*In case the classrooms/laboratories are not identified, the information will be updated after pre-registration data is available

# The time-table doesnot include the schedule for 1<sup>st</sup> year B. Tech/Dual Degree/BE/Integr. M. Tech, which will be notified later

\* For UG 3<sup>rd</sup> year onwards & PG/Ph.D 2<sup>nd</sup> year onwards, w.e.f. 16.08.2021; 1<sup>st</sup> Year PG & Ph.D, will be notified later.

**Note:** Minor changes in the schedule will be updated later either centrally or by respective Departments
