About Indian Institute of Technology (ISM), Dhanbad

The Indian Institute of Technology (Indian School Mines), located in the mineral rich belt of India in the city of Dhanbad, was established in 1926 as the premier institute of mineral technology. ISM is directly under the financial and administrative control of Ministry of Human Resource Development (MHRD), Govt. of India since 1996. It was granted autonomy by the Government of India in 1967 and since then it is deemed to be a university under UGC Act. Initially started as an institution to impart mining education, presently it has developed into a full-fledged technical institution of international acclaim offering a host of programmes like B. Tech., M. Tech., M. Sc., M. Sc. Tech., and MBA. In addition, the School offers M. Phil. and Ph. D. programmes, while also awarding D.Sc. as the highest degree of academic achievement.

About Faculty Development Centre, IIT (ISM) Dhanbad

The Faculty Development Center (FDC) at Indian Institute of Technology (ISM), Dhanbad, has been sanctioned by the Ministry of Human Resource Development, Government of India, under the Scheme of Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMMNMTT). Faculty development has a critical role to play in promoting academic excellence and innovation. FDC will incubate and nurture, on a continuous basis, the professional development of teachers and will create opportunities for professional growth. Research Cell located within FDC will help to undertake research on different aspects for professional development of teachers. Faculty development is an essential element of institutional effectiveness. The extent to which the institution supports faculty development will be strongly reflected in levels of the engagement in learning activities, conduct of research and ultimately fulfilling the objectives and goals of the college/university/institute. Faculty development programmes include the four possible types of development: personal (interpersonal skills, career development, and life planning issues); instructional (course design and development, instructional technology); organizational (ways to improve the institutional environment to better support teaching); and professional (ways to support faculty members so that they fulfil their multiple roles of teaching, research, and service).

Vision & Mission

- To inculcate among teachers, the motivations to promote institutional effectiveness through the development of personal, instructional, organizational, and professional growth of faculty.
- To promote organizational strategies for faculty development so as to incentivise teachers to grow professionally and enable the institutions to grow.

- Faculty development is expected to result in improved teaching performance and better learning outcomes for students and teachers.
- To promote new ways of thinking about the student-teacher relationship, and increased commitment to educational scholarship.
- Developing all round skills are a prominent aspect for faculty development.

Objectives:

- Training programme will be planned for the college/university/institute teachers for his/her sensitized roles and responsibilities in their respective organizations.
- Improving the quality of teaching in colleges/ universities/ Institutes.
- The Faculty Development Centre will also offer a wide variety of services, as outlined below.
 - Teaching & Learning
 - Research & Creative Activity
 - Career Planning
 - Collegial Conversations
 - Communication Technology
 - Resources & Support
