ABOUT THE DEPARTMENT

The Electrical Engineering department was established in the year 2005. The four-year B.Tech. program in Electrical Engineering was started in the academic session 2006-07. Although the Department of Electrical Engineering is one of the latest of the existing departments of the Institute, the Electrical Engineering Section existed as a part of earlier Mining Machinery Engineering department from 1975. Apart from different B.Tech. programs, the department at present also offers M.Tech programs in Intelligent Control and Instrumentation, Power System Engineering and Power Electronics & Electrical Drives. Through funded projects, consultancies, Doctoral, and postdoctoral programs, most of the research activities are being carried out in the department.

The Department of Electrical Engineering is pleased to announce the appointment of **Prof. Kartick Chandra Jana** as the new Head of the Department.

We warmly welcome Prof. Jana to this leadership role and are confident that his vision, experience, and dedication will further strengthen the department's academic and research excellence. We look forward to an inspiring and successful journey together.
